# Chairman's Welcome

---

**Welcome to season 2025. It's been a really busy time at Papamoa FC as we have had to mitigate substantial growth while investing significant time in building infrastructure and capacity.**

It's not unfair to say the primary focus has been on off field with investment and development in new fields, facilities, clubrooms and creating capacity over a range of areas. The club forecasts 935 players for season 2025. There is still work to do however there is light at the end of the tunnel finally. It's been a long process and a process we can't wait to see the end of it.

Further focus was invested in achieving the NZF Quality Club Mark and the NZF Xero programme as well as co developing the football club FC Tauranga Moana which was developed to support the development model in the Bay of Plenty for our Youth and Wahine teams.

Between Papamoa FC and FC Tauranga Moana we can proudly say we hold every NZ Football accreditation in the country. The club has received

great support from it's partners and sponsors and we are excited to be able to demonstrate them in a professional way with the design of the game day programme in conjunction with Weston Design Papamoa FC are in an extremely strong position, probably stronger than alot in this country.

For the most part the completion of the back office allows us to now refocus and pivot and turn to performance. We aren't just here to participate anymore. It's been the best pre-season we have had for a number of years in the mens NRFL space and are looking forward to finally seeing everyone on the park.

We look forward to season 2025

## Men's Coach Comments

**Welcome to Matamata for today's game. Welcome also to former Papamoa player Michael Fi'Fi who is leading the Matamata side this year.**

We come into this game on the back of our first defeat of the season last week against Taupo. We know we didn't showcase the best version of ourselves last week, which was the most disappointing thing for me. We knew that last week was going to be the toughest game we had faced so far, and so it proved. If you don't perform to your best in games like that you aren't likely to come away with something and that is what happened. Another disappointing element was the nature of the goals we conceded and the one right on half time was the killer in terms of the game. However, after reflection and watching the game back despite us not being at our best, Taupo were not as superior to us as the scoreline suggests, we had plenty of opportunities in the game to create and threaten. If you take the positives in the situation, we know we can play better and we still were in the game for the majority of it and a little more care in the final third could have led to a goal but we learn from it and move on. I have full trust in all of the group and believe in the journey we are on, every journey has bumps in the road, the key now is how we respond to it.

On the positive, another really good win for our u23s side who also faced their toughest

opponent of the year. The group are growing and developing all the time and the consistency of their performances is excellent. It shows that they are ready to step into first team action should they be needed. It is really good for the club to have a strong 23s side as they are the future and if they keep progressing the way they are then we are in good hands going forward.

We know we are facing a decent side today. We faced them in our second pre season game and they are a well organised outfit who i am sure will have developed and progressed since our last contest. Despite their current points total I know they have performed well in all their games so far and come here looking to get some points on the board away from home. However, i back us against anyone and whilst we are always respectful of any opposition if we play to our potential this is a game we should be looking to win to continue our good start to the season at home. 3 wins from 3 home games is the challenge for the day.

## Q&A

### What's your best football memory and why?

"Winning the league with a perfect season in 2020 is hard to beat. I chopped my pony tail off at the pub afterwards and hung it on the league cup. A close 2nd place would be.. Banging a goal in the top bin from right back 38m away during National Secondary School Tournament 2008."
